👤 Profile

Detail-oriented final-year Data Science student with hands-on experience in data analysis, business intelligence, and machine learning. Proficient in Excel, Power BI, SQL, Tableau, Python, Power Query, and DAX for transforming raw data into clear, actionable insights. Developed multiple end-to-end dashboards and AI-driven projects, including a CNN-based skin condition classification system and analytical reports across healthcare, sales, and entertainment datasets. Strong foundation in data cleaning, modeling, visualization, and statistical analysis. Actively seeking a Data Analyst internship to apply analytical skills and contribute to data-driven decision-making.

🎓 Education

Bachelor of Computer Science (Honours) – Data Science

School of Computing & Informatics, Albukhary International University (AIU), Malaysia

- Final-year student required to undergo a 6-month Industrial Training starting March 23, 2026.
- Academic focus includes data analytics, statistics, machine learning, database systems, Python programming, and data visualization

💼 Professional | Academic Experience

Albukhary International University

Front-end Developer with Data Analyst (Final Year Project),

- Developed an AI-based web system to detect and classify facial skin conditions using CNN models (MobileNetV2, ResNet50).
- Integrated Gemini API for personalized skincare recommendations and user progress tracking.
- Built a full Django web interface for image upload, prediction results, and follow-up monitoring.

🧠 Skills

Technical Skills

- Excel • Power BI • Tableau • SQL • Python
- Data Analysis • Microsoft Office • Google Workspace • HTML • CSS

Soft Skills & Leadership

- Problem-Solving • Communication • Teamwork • Time Management • Critical Thinking • Adaptability • Attention to Detail

📁 Projects

SkinSense – AI Skin Condition Classification System

Final Year Project (Deep Learning, Django)

- Built a web-based AI model to classify facial skin conditions.
- Integrated Gemini API for personalized recommendations.
- Developed the full Django interface for prediction results and user monitoring.

Netflix Global Content Dashboard

Power BI Data Analysis Project

- Analyzed 20K+ Netflix titles by genre, country, and yearly trends.
- Designed KPIs, visuals, and a Netflix-themed UI for insights.

Healthcare Waitlist Analytics Dashboard

Power BI End-to-End Dashboard

- Created KPI summaries, specialty breakdowns, and trend views.
- Strengthened skills in DAX, modeling, and BI storytelling

Sales & Product Performance Dashboard

End-to-End Power BI Project

- Built a 2-page report with KPIs, YoY analysis, product rankings, and category insights using DAX.

Smoking Health Risk Analysis Dashboard

Power BI Healthcare Analytics

- Designed a one-page healthcare dashboard showing smoking patterns and health risk indicators.

Certificates

- | | | |
|--|---|--|
| • Extract, Transform and Load Data in Power BI | • How to Visualize Your Data Using Microsoft PowerPoint | • Preparing Data for Analysis with Microsoft Excel |
| • Harnessing the Power of Data with Power BI | • Getting Started with Microsoft Excel | • Data Entry in Microsoft Excel |
| • Tools for Data Science | | |

Courses

Microsoft Power BI Data Analyst

Microsoft / Coursera

- Preparing Data for Analysis with Microsoft Excel
- Harnessing the Power of Data with Power BI
- Extract, Transform and Load Data in Power BI
- Data Modeling in Power BI
- Data Analysis and Visualization with Power BI
- Creative Designing in Power BI
- Deploy and Maintain Power BI Assets and Capstone Project
- Microsoft Power BI Data Analyst Exam Prep (PL-300)

Languages

- | | | |
|-------------------|------------------------|---------------------------|
| • Arabic {Native} | • English {Proficient} | • Bahasa Malaysia {Basic} |
|-------------------|------------------------|---------------------------|
